*Know Our
Impact*

KNOW OUR IMPACT

Catherine Hope Foundation is dedicated to improving the lives of children, families, and underprivileged communities. Through our education programmes, skill development initiatives, wellness support, and community outreach, we create safe spaces where children can learn, families can find guidance, and communities can grow stronger.

Across the years, we have been committed to supporting the people of Ennore, Mumbai, and Dindigul with compassion, guidance, and hope for a brighter future.

A large, close-up photograph of a human eye, showing the iris and eyelashes, occupies the left side of the page. The eye is looking directly at the viewer.

VISION & MISSION

To serve with a gentle and compassionate heart to lift the downtrodden and bring true transformation to individuals leading to empowered, depression-free, and healthy communities.

- Build multifaceted platforms enabling people from all walks of life to live life to its fullest.
- Ensure access to quality education, foster holistic education and development for children, and provide daily nutritious food to support their well-being.
- Empower the differently-abled, support cancer patients, and assist widows, vulnerable women, and others in need, with a focus on alleviating suffering and improving well-being.

*From the
Founders' Desk*

FROM THE FOUNDERS' DESK

Selvinson & Graciana

It gives us immense joy to reflect on the year gone by and to share with you the progress, growth, and renewed hope that your support has enabled across our three regions - **Ennore, Dindigul, and Mumbai**. Each step forward has been possible because you chose to stand with us, believe in our work, and invest in the lives of those who need it most.

In Ennore, this has been a year of steady expansion and meaningful impact. Our children's education initiatives, under our **Raising Catherines Programme**, remained at the heart of our work. **Daily tuitions, spoken English support, music sessions, and computer classes helped children learn with enthusiasm and regularity.** Our **Change Ambassadors Programme**, helps children build confidence, discipline, and a sense of social responsibility.

The children also enjoy spending time with our growing **collection of library books**, discovering new stories and developing a love for reading. **Each evening, our staff prepare healthy snacks for the children**, a small but meaningful addition that ensures they have the energy and comfort needed to learn well.

Behind these programmes are stories that quietly remind us why we do what we do. Vijay and Tharun, two brothers studying in Classes 8 and 6, came to our Center struggling deeply with learning. Shifting between English- and Tamil-medium schools had only increased their confusion, and confidence at home was slowly breaking down. With patient guidance, individual attention, and encouragement from our staff, both boys have begun reading independently and showing steady progress. During a recent Teachers' Day celebration, they shared words that stayed with us: **"Even our parents did not believe we could improve. But you believed in us."** Moments like these affirm that sometimes, belief is the first lesson a child needs.

This year, we also launched our **Senior Citizens Programme**, recognising the isolation many senior citizens. **Through regular home visits, simple conversations and monthly grocery kits**, we have tried to ensure that their daily needs are met and that they feel seen, valued, and cared for.

Our **Women Empowerment Programme** also strengthened, offering training in baking, homemade masala making, and other livelihood skills that help women gain confidence and financial independence.

Our **Monthly Grocery Distribution** also increased significantly. Many senior citizens, widows, and individuals unable to work due to ill health depend entirely on these provisions. For them, these groceries are more than essentials; they are security, stability, and a reminder that they are not walking through life alone.

Another major milestone in Ennore was the inauguration of the **Catherine Technical Institute (CTI) at the Catherine Hope Center**. What began as basic **Computer Classes** has now grown into a structured institute offering training in programming and other job-ready skills for young adults and graduates. CTI is opening doors that many of our students never imagined possible, giving them the confidence to step into a future of stability and opportunity.

BUILDING CONSTRUCTION

A key highlight of the year has been the beginning of construction of our own Catherine Hope Center building. This has been a long-awaited dream, a space that will house classrooms, training rooms, community activities, support services, and much more. The progress made so far gives us hope that soon our programmes will have a permanent home where lives can be nurtured and transformed for many years to come.

In Dindigul,

our work among differently-abled individuals continued with deep commitment. Monthly distribution of **healthy grains** and nutritional supplements eased the daily struggles of families with limited support systems. Many beneficiaries shared how these essentials brought comfort, strength, and a renewed sense of dignity.

In Mumbai,

we continue to walk alongside families battling cancer and extreme hardship. **Bajlu SK and his wife, Hamida Bibi,** came from West Bengal seeking treatment at Tata Memorial Hospital, first for Hamida's breast cancer and later for Bajlu's own cancer diagnosis. The cost of treatment forced them to sell their home, and today they live near the hospital while their younger daughter remains in school under the care of relatives. Through our Mumbai outreach, we have been able to support them with monthly groceries, basic essentials, and a consistent on-ground presence, ensuring they are not alone as they continue their fight. While their journey remains uncertain, our Mumbai team continues to support Bajlu and Hamida with essential care and regular follow-up, standing with them through treatment and recovery.

Call to Action

Join Us in Building Hope

“Alone we can do so little; together we can do so much.”

~Helen Keller~

This truth continues to shape everything we do at Catherine Hope Foundation. Your partnership helps us extend our reach, strengthen our programmes, and open doors of opportunity for children and families.

Scan to Support the Work

Ways You Can Make a Difference:

- Support our ongoing education and community programmes
- Partner with us through financial support to bring the new Center to life
- Volunteer your time, skills, or mentorship

We invite you to be part of this growth.

04.

*New Catherine
Hope Center*

New Catherine Hope Center

The construction of the New Catherine Hope Center is moving forward at a steady pace. We are happy to share that the pillar works have now been successfully completed, marking a significant milestone in our journey to build a permanent home for the children and communities we serve in Ennore.

More than a structure, this Center will become a hub of learning, care, and opportunity for the children and families of Ennore.

The total estimated cost for completing the Center is ₹1.8 crores.

As we move into the next phase of construction, we also face a huge need. We are relying on the kindness and generosity of people like you to help us reach this goal.

Every contribution, small or big, becomes a brick of hope in this mission. Your support can shape futures, strengthen families, and make education and care accessible to the most vulnerable.

If your heart leads you, we invite you to stand with us in this journey. Together, we can build a space where hope lives, and lives are transformed.

05.

*Programme
Highlights*

HIGHLIGHTS

Differently-Abled Empowerment Programme (DAEP)

Our Differently-Abled Empowerment Programme (DAEP) is the first programme started by CHF at Dindigul. This programme caters to the various needs of our differently-abled beneficiaries. We support them by providing mobility devices, cash support, groceries, and healthy grains. We have touched the lives of 417 beneficiaries through this programme so far.

The Story of a Young Boy Vinod.

Vinod, a bright college student from Dindigul, once lived a happy life with his family. His father was both an acupuncture therapist and a building contractor. But everything changed when Vinod met with a terrible accident while riding his bike. He suffered severe head and leg injuries, and despite spending nearly Rs. 80 lakhs on surgeries, his legs remained deformed, leaving him unable to move.

Within a year, tragedy struck again when his father, who was pushed down during a business dispute, suffered a sudden cardiac arrest, and died instantly. This shock left his elder brother Vicky and his elder sister Gandhi battling with mental disturbance.

Sometimes Vinod goes out onto the street begging for food without anybody's knowledge. Today, CHF supports them with groceries, giving the family the much-needed strength and comfort at this time.

Cancer Warriors' Care Programme (CWCP)

The Cancer Warriors' Care Programme (CWCP), started by CHF in Mumbai, reaches out to cancer patients who are bogged down by treatment expenses and are deprived of even the most basic essentials. After undergoing treatment at Tata Memorial Hospital, many are left with no choice but to sleep on pavements, as they cannot afford lodging nearby. During these moments of deep vulnerability, we step in to offer a secure place to stay, providing essential groceries and also assisting with their ongoing treatment. We at CHF, strive to help them experience dignity, relief and hope on their journey to recovery.

The Story of
*Bajlu SK and
Hamida Bibi*

Bajlu SK and his wife, Hamida Bibi, came to Mumbai from West Bengal carrying more courage than belongings. Their journey took a painful turn in 2019, when Hamida was diagnosed with breast cancer. With hope guiding them, they travelled to Tata Memorial Hospital, where she fought bravely for years and slowly began to recover.

But in May 2025, life struck them again with a heavy blow when Bajlu was diagnosed with gastrointestinal cancer. The weight of two major illnesses became unbearable, forcing them to sell their home in West Bengal just to keep up with the medical costs.

The couple has two daughters, the elder is married, and the younger is still in school. With both parents now unwell, their younger daughter is being cared for by her uncle, while Bajlu and Hamida stay near the hospital streets, holding on to each other and to their fragile hope.

Their story is one of quiet strength, deep love, and the relentless fight for life, even when everything around them seems to fall apart.

CANCER WARRIORS' CARE PROGRAMME (CWCP)

Widows Welfare Programme (WWP)

Through our Widows Welfare Programme (WWP) where many families who lack proper support in the society are blessed. In this programme, we identify the struggling widows in and around Ennore and Ernavur and help them with monthly groceries as a modest way to restore their dignity and standing in the society.

The Story of Chitra

Chitra from Ernavur is one of our WWP beneficiaries, a young widow with two small children. She lost her husband 4 years ago and lives with her father. She had a job, but she quit it because she was unable to take care of her children and household chores. She continues to support her family by working as domestic help in houses. One year after she lost her husband, she joined our WWP. Whenever we have a gathering for the widows through our programme, we invite her, and she is happy to come and be a part of us. CHF helps her by giving monthly groceries, and this serves as additional support.

Catherine Hope Center (CHC)

The Catherine Hope Center is a place where kindness and care come alive each day. It stands as a quiet symbol of hope for children, widows, senior citizens, differently-abled individuals, and anyone seeking support and dignity.

All the activities happening at the Center, such as daily tuition, computer training, music classes, spoken English sessions, and nutritious snacks, fall under the umbrella of Raising Catherines. Some parents who struggled to feed their children are grateful for the healthy snacks that are provided at the Center every day. Recognizing this need, our staff lovingly ensure that the children from those families are sent home with some food.

Our student Ajay's mother once shared how her son, who was shy and struggling in school, began to grow in confidence after joining the Center. Not only has his academic performance improved, but he has also developed a love for music and performed in front of others for the first time. The children say that the Center feels like a second home for them.

Through the Change Ambassadors Programme, held every Tuesday, they are taught moral values and guided through counselling sessions. During the annual Summer Camp, we encourage social responsibility through activities such as distributing buttermilk to the public as part of our Beat the Heat Campaign. Our children also learn practical skills like tailoring and enjoy games, arts, and crafts in our Summer Camp.

The emotional impact of the CHC goes far beyond its services and programmes. It restores dignity, spreads love, and renews hope. Visitors often leave with a deeper sense of compassion, witnessing firsthand that even small acts of care can transform lives. In simple words, the CHC is where sadness gives way to hope. Children learn to dream again, widows find strength, differently-abled individuals discover confidence, and elders feel truly cherished. It is the living legacy of love and purpose, where we serve with love to empower.

Healthy Grains Programme (HGP)

We believe that good nutrition is the base of a healthy life, and no child or family should go hungry. Keeping this in mind, we started the Healthy Grains Programme (HGP) to provide nutritious supplements to children and families in need. By using locally available grains such as ragi, millets, pulses, and nuts, we help communities receive the essential nutrients needed for healthy growth and well-being.

HGP also spans across all our programmes. Children at the Catherine Hope Center receive nutritious supplements prepared from these ingredients. Beneficiaries under the Differently-Abled Programme, Cancer Warriors' Care Programme, Senior Citizens Programme, and Widows Welfare Programme also receive the same nutrition support, ensuring people of all ages are nourished.

The Foundation of a Healthier You.

“The Story of Kannan” who went from illness to ongoing care through compassion

Through our tuition classes at our Catherine Hope Center, we came to know two children - Sai Ritesh and Rithika. They come to the Center every evening with bright smiles. But behind those smiles is a difficult story of their father, Kannan.

Kannan once worked hard to support his family, but over time he became addicted to alcohol. A few years ago, he suffered a stroke that affected both his legs. During the treatment, doctors found that both his kidneys were not functioning fully. Since then, he has been bedridden and goes for dialysis once a week, though he actually needs it more often but cannot afford it.

Due to this, he drinks only half a litre of water a day and eats very little. His wife now works in a small restaurant to take care of the family, manage her husband's medical needs, and send their children to school.

When we heard about their situation through the children, we began supporting them with healthy grains, under the Differently-Abled Empowerment Programme (DAEP). Every month, our staff visit them to give nutritious supplements that help Kannan stay healthy. This support has been a great help, as the money they save is now used for Kannan's dialysis and treatment.

*Faces of New
Beginnings*

01.

Tharun

At home, I was always told that I was not smart enough to study and that I did not know anything. But at my daily tuitions, the staff akkas (sisters) were the ones who believed in me. They told me I could do it, that I could study well. Hearing that changed something in me. That was the happiest day at CHF.

02.

Akshaya

My happiest day at CHF was the Friendship Day celebrations where I was able to participate in all the events and games with confidence. I learnt a lot about confidence that day.

03.

Hemant

My happiest day at CHF was on Independence Day. Before this, I never participated in anything but since I participated in the programmes and the games, I felt really good that day.

04.

Krithika Yazhini

My happiest day at CHF was when Santa gave us gifts, chocolates and new clothes for Christmas.

*CHF Over the
Past Year*

Catherine Technical Institute

The Catherine Technical Institute (CTI) is an initiative of the Catherine Hope Foundation aimed at equipping young adults with practical, job-oriented technical skills. Catherine dreamed of becoming an engineer.

CTI honours Catherine's legacy by equipping underprivileged youth with the skills and confidence they need to build real career opportunities and brighter futures through structured courses in Basics of Computers, Hardware, and Software Testing. CTI provides learners with foundational digital competencies and technical exposure that enhance employability and open pathways to sustainable livelihoods. Today, Catherine's dream lives on through every student we train.

01.

Our Objectives at CTI

- **Digital Skills:** Learn computer basics, digital tools, and programming.
- **Practical Experience:** Work on projects with industry guidance.
- **Career Readiness:** Gain confidence, communication, and workplace skills.

02.

Who We Serve

- Students and young adults from communities with limited educational resources.
- Individuals new to technology or digital tools.
- Advanced learners seeking programming and technical training for employability.

03.

Who Can Join

- School and college students interested in computers and vocational skills.
- Working professionals upgrading technical and practical abilities.
- Anyone motivated to gain hands-on training in digital literacy, programming, or entrepreneurship.

Basics of Computers

- Learn MS Word, Excel, PowerPoint
- Improve typing and digital skills
- Ideal for office and data-entry roles

Software Testing

- Software Testing Concepts
- Hands-on Testing Projects
- Agile Testing + Jira Tools

Hardware Testing

- Diagnose, assemble, and repair desktops and laptops
- Practical IT support skills
- Suitable for technician and support roles

Senior Citizens' Programme

On 1st March 2025, CHF launched the Senior Citizens' Programme in Ennore with the vision that no senior citizen should feel lonely or uncared for.

Many elders in this community struggle every day, often without even a proper meal. We provide monthly groceries, moral and emotional support so that they feel valued and not forgotten. To mark the launch, five elderly couples were invited to our Center.

As part of the Change Ambassadors Programme, older children from our Center also took part in this event. They warmly welcomed the elders, held their hands, and guided them inside, making sure they felt comfortable and respected. Their involvement showed the value of kindness and service that CHF has encouraged in the younger generation.

From Abandonment to Belonging

We first met Mr. and Mrs. Salam during a dental camp conducted in 2024. As we listened to their story, we were deeply moved, and their situation became one of the inspirations behind the launch of the Senior Citizens' Programme.

Mr. Asmathula Abdul Salam

and his wife, Mrs. Aakilla, were the first beneficiaries of this programme. They have three children and owned a small piece of land in Ennore, where they built a house for their family. Sadly, after their children's marriages, they were neglected and not cared for in their old age.

One day, their situation turned even more painful when their children dumped a load of sand in front of their house due to a property dispute. Shocked neighbours intervened and called the authorities, after which the court issued a stay order to protect them. Since then, their children have neither visited nor checked on them. With no support, the couple finds it extremely difficult to manage their daily needs.

We at Catherine Hope Foundation support them with monthly groceries, and now they visit our Center whenever they feel lonely, where they find companionship and comfort among our staff and children.

5th Anniversary Celebration at the Vandalur Zoo, A Day of Joy and Wonder

As part of CHF's 5th anniversary, we fulfilled a long-awaited dream of our differently-abled beneficiaries with a **special trip to the Arignar Anna Zoological Park, Vandalur**, on 1st November 2025.

The morning began with bright smiles as our beneficiaries, their caretakers, and the CHF team travelled from Ennore, filling the journey with songs and excitement. The zoo authorities welcomed us warmly, offering an orientation and arranging special vehicles that made the visit comfortable. As we moved through the park, the playful monkeys, majestic tigers, towering elephants, vibrant birds, and the thrilling lion safari, where lions came close to our vehicle, filled our beneficiaries with awe, laughter, and child-like wonder.

A light, tasty lunch served by our team and refreshments offered by the zoo staff added to the warmth of the outing. It was a day celebrating inclusion, life and simple joy. The memories from Vandalur will remain a beautiful reminder of how shared moments of love and kindness make every milestone truly meaningful.

Nutrition Week, Grocery Distribution & Summer Camp

Summer Camp and National Nutrition Week Activities at Catherine Hope Center, Ennore this year, became a place of joy, safety, and nourishment for our children and beneficiaries. With many parents away for work during the summer, we organised a season-long Summer Camp to keep the children engaged, protected and nurtured.

From 24th April, the Center was alive with indoor games, reading sessions, puzzles and joyful movie time. The children's excitement especially while discovering table tennis filled the Center with laughter. Our senior students also learnt tailoring and proudly stitched dresses for younger children and for themselves, building both skill and confidence.

In September, we celebrated National Nutrition Week (1st - 7th) with equal love. Each day, we prepared a wholesome snack and personally shared it with one of our beneficiaries, from widows and senior citizens to children and differently-abled individuals. Their smiles, blessings, and heartfelt words reminded us how simple, nutritious food can bring comfort, joy, and hope.

Both initiatives reflected our mission: to create a safe, nurturing space where children and beneficiaries feel valued, supported, and cared for. We are grateful to our donors, whose generosity helped us provide healthy snacks throughout the summer and nutritious meals during the Nutrition Week.

At the Center, every season becomes an opportunity to uplift lives with learning, love and nourishment.

08.

Obituary

A Legacy of Love

CHF Ambassador - Honouring the Life of

MRS. ANGELINE MOSES

(30th August 1964 - 28th July 2025)

At Catherine Hope Foundation, we have often walked alongside individuals and families facing great challenges. This year, we pause to remember someone who stood beside us as a beacon of encouragement, faith, and compassion. Mrs. Angeline Moses, our dedicated Ambassador from Lucknow, was an extraordinary mentor and an inspiring friend to many.

For the past four years, the CHF calendar had a special place on her desk, not merely as a planner, but as a symbol of Catherine's courage and the hope that drives our mission. She often shared Catherine's story with those enduring illness or grief, helping them find comfort and strength in their own journeys.

Obituary

"YOU WILL ALWAYS BE MISSED"

09.

Volunteer Note

Ms. Rose Esther Sharon

My journey with Catherine Hope Foundation (CHF) began quite unexpectedly. I was in 12th grade, looking for a place to complete my school's mandatory social service hours, when I first stepped into CHF. At that time, I thought I would only be around for 6 months, helping out as a tutor for the Spoken English classes, designing and editing graphic content. But life had other plans. Almost three years have passed since then, and CHF has become an integral part of who I am today. I still remember my very first assignment of adding subtitles to a video. I had absolutely no idea how to do it.

I spent hours trying to figure out where to start, but slowly I began to get the hang of it. I always learned something new about digital storytelling with each task. As the months went by my responsibility grew and I started contributing much towards documents. Each task came with its own learning curve, and I loved every bit of it.

But what truly makes CHF special to me is not just the work but the people. Being the youngest in the team, I have always been surrounded by warmth, encouragement, and care. Every piece of advice I receive is given with love, and even when I make mistakes, I am met with understanding rather than criticism. Over time, my colleagues became more than co-workers. They became family. Through CHF, I have grown in ways I never imagined. I have learned responsibility, honesty, teamwork, and confidence. Most importantly, I have learned the value of compassion. Each time I hear about one of our beneficiaries, I am moved by their courage and resilience.

Looking back, I realize that joining CHF was never just about completing my school's service hours. It was about finding purpose, learning from people's stories, and growing alongside them. Working here has truly been one of the biggest blessings of my life, and I hope to continue being part of this beautiful journey for many more years to come.

10.

Staff Note

Mrs. Jayachitra Dinesh

I joined Catherine Hope Foundation (CHF) in July 2023. From the beginning, I was trained in various areas such as field visits, taking tuition classes for children, and assisting in different CHF activities. After joining CHF, I came to understand the many struggles faced by people in Ennore, especially cancer patients and widows.

During our field visits, I have noticed that beneficiaries are waiting to meet and talk to us more than receiving the groceries. They feel happy when we spend time listening to them. Seeing their smile gives me great joy and motivates me to continue working with CHF.

I have completed my Teacher Training Course, and now I teach children at our Center. When I interact with the children, I find some active and some quiet. Later, I came to understand that many of them face challenges at home like alcoholic or abusive fathers, and some do not even get enough food to eat. I feel happy when I prepare snacks for them and hear them say they like it.

I also enjoy spending time with our differently-abled beneficiaries and widows. They welcome us with great love, calling us their daughters and sisters whenever we visit their homes. Our management has always been very supportive and encouraging whenever I do something good. Every day, I learn something new at CHF about people, love, patience, and compassion. Working here has truly changed my heart and made me grateful for the opportunity to serve others.

11.

Donor Note

MR. & MRS. NEWIN DURAI

**Dear Team Catherine Hope Foundation,
Greetings to you!**

We are thankful for the work of Catherine Hope Foundation. Supporting this work has truly been a blessing to us as we see care and compassion reaching the needy through your dedicated service. Seeing the impact of your work among the needy and the children has deeply touched our hearts. Your dedication, compassion, and faithfulness in serving others reflect a genuine commitment to making a difference. We are privileged to partner with Catherine Hope Foundation. Supporting your work has strengthened our own values and reminded us that when we sow into meaningful work, we ourselves are richly blessed. We are grateful for the opportunity to stand with you and be a small part of the great work you are doing.

May you continue to be guided, protected, and strengthened in your work, and may the efforts you invest touch many more lives and bring hope where it is most needed.

With warm regards,
Newin and Shinuja

Serve With Love To Empower

12.

Vision 2026

Vision 2026:

Building Tomorrow's Hope

As the Catherine Hope Foundation continues to grow, our vision for 2026 is clear: to strengthen what we have built, expand who we serve, and deepen the quality of impact across every programme. Over the years, we have seen lives transformed through consistent care, education, and community support. Vision 2026 builds on this foundation, scaling our reach, formalizing our systems, and creating sustainable pathways for long-term change. The permanent Catherine Hope Center will provide the stability and structure needed to grow responsibly and intentionally, ensuring that our existing programmes can serve more individuals with greater effectiveness and continuity.

Our 2026 Growth Targets

Child Development & Education

- Expand from 40 to 80+ children receiving structured after-school academic support
- Continue providing healthy snacks to nourish both body and mind
- Continue 5-day academic reinforcement with improved classroom infrastructure
- Strengthen life-skills and value-based sessions through Change Ambassadors Programme once a week

- Train 50+ youth and women annually in computer literacy and digital skills
- Strengthen spoken English and employability modules
- Facilitate internships or job placements for CTI candidates
- Introduce latest and advanced courses such as AI Tools & Productivity, Digital Marketing, Basic Cybersecurity, Advanced Excel and Data Analytics.
- Scale up computer infrastructure

Catherine Technical Institute (CTI)

Women Empowerment & Livelihood Support Programme

- Expand livelihood-focused skill training programmes
- Conduct quarterly community support and mentoring sessions
- Ensure no one in our care goes to bed hungry

- Continue quarterly medical outreach initiatives
- Organize physiotherapy camps, cancer awareness programmes, and preventive health screening camps
- Provide targeted assistance to families facing medical emergencies, including cancer-related cases
- Extend emergency and welfare support to more vulnerable families each year

Community Health & Crisis Support

Infrastructure for Sustainability

- Complete the permanent Center with dedicated classrooms, training halls, and counseling spaces
- Ensure uninterrupted programme delivery throughout the year
- Strengthen volunteer and donor engagement to sustain long-term growth

13.
